

OLED-related Specialty Chemicals

Q. What components do you aim to supply for flexible displays? Are you developing four films--two barrier films, one touchscreen panel and one window film?

A. We have been developing all of them, and we have already launched our flexible touchscreen panel. To commercialize flexible display materials, we

- Q. A South Korean manufacturer is reported to supply lithium-ion secondary batteries to a U.S. maker of electric cars. Do all the lithium-ion secondary batteries supplied to the U.S. maker use your separators?
- A. Regarding this news, we think it will have no influence on our separator
